TO DISCUSS PLAN

MAYOR'S WAR MEMORIAL COMMITTEE TO MEET FRIDAY

MORE MEMBERS NAMED

Fourteen Organizations Have Appointed Representatives to Form a Central Committee.

The only organizations who have not yet responded to the Mayor's invitation to be represented on the central committee called to take up the matter of a memorial to our soldiers and sailors are: Liberty Loan Committee, War Saving and Thrift Stamp Committee, United Waar Work committee, Nodaway County Bar Association, the Board of Education and the Knights of Columbus.

In addition to the six organizations already reporting representatives on the committee, the following already have named representatives:

Commercial Club, Nathaniel Sisson.
Sunday schools, C. Edwin Wells.
Red Cross, M. J. Alderman.
Women's Relief Corps, Mrs. M. E. Farrar.
Ministers Alliance, Dr. S. A. Coile.
Spanish American War Veternas, Harry D. Snyder.
Home Guards, Sgt. E. C. Curfman.

Thirteen civic, religious, educational and war organizations have now named representatives to the committee called by Mayor W. O Garrett to meet Friday night at the Commercial Club rooms to discuss and formulate plans that are expected to result in the erectiono of a war memorial. The meeting will be held at eight o'clock.

It is expected that the organizations not yet reporting will have named representatives in time to have them present and take part in the meeting as it is desired that every society named by the mayor be represented on the central committee.

Just what action the committee will be taken is a matter for speculation, but it is believed that steps will be taken looking toward the erection of a community building, hundreds of citizens having expressed a desire to see such a building erected with many having pledged to actively support such a project.

CHILLICOTHE COMES FRIDAY.

A BRAND NEW PROFESSION

Farm Mechanics a Profitable and Attractive Vocation for War Disabled Men—Uncle Sam Pays.

Washington, Feb. 12.—In other days a "farm mechanic" was usually a chap who could solder up the hole in a milk bucket, repair the pump or paint the wagon or tinker with the clock. Today the term means that he is a highly skilled artisan, employed as such by larger farms. In the plowing season he is tractor operator, engineer of the motive machinery which pulls the gang plows, harrows and seeders, doing the work at one cut of half a dozen plow teams and men

He is engineer and superintendent of the reaping and threshing in their season. He supervises and operates the cutting of silage and filling of silos. He takes care of the dairy machinery or the electric light plant of the farm. He looks after the upkeep of the automobiles and trucks of the establishment. Such are in general the duties of the "farm mechanic" for which disabled soldiers are being reeducated by the United States government through the federal board for vocational education. Disabled men are given support for dependents. All expenses of the course are paid by the government.

War disabled farm boys are preferred for education along these lines. Their practical knowledge of agriculture being a valuable and almost essential basis upon which to build. Large farm and plantation owners forced by labor conditions to turn more to mechanical labor saving devices are eager bidders for competent men and offer attractive salaries

The federal board for vocational education at Washington is desirous of getting in communication with war disabled farm young men who would be interested in taking training for the farm mechanics and similar courses.

Corp. Roscoe Burris Released.

Corporal Roscoe E. Burris, a son of Dr. and Mrs. W. F. Burris, arrived home last night to visit his parents. He was discharged from military service last Friday. Corp. Burris was attached to the 421st signal corps and has been in overseas service for the past three months. Previous to that he was at Camp Funston, Kan. Mrs. L. P. McGill, a sister of Corp. Burris, and small daughter, Mary Elizabeth, who have been spending the winter with Mrs. McGill's parents, left today for Wichita, Kan., to meet Mr. McGill, who has recently been discharged from service with the marine corps.

Song by guests accompanied by orchestra.
"Maryville and Her Boys," Judge John M. Dawson.

The Father and Son banquet—chicken pie dinner—at the Christian church tomorrow night is going to be something of an innovation. The program calls for some interesting talks by both fathers and sons and a program that calls for discussion of the relation of father and son from all angles has been prepared. The program promises something out of the ordinary and together with the musical numbers and other things, the "other things" being the chicken pie those who attend will be well repaid. Dr. S. A. Coile of the Presbyterian church will act as toastmaster.

Music will be furnished for the occasion by the Christian Bible school orchestra under the direction of Mrs. Loren J. Schnaubel and composed of the following members:

Violins, Margaret Louise Hosmer, Chas. Elmore, Hazel Schnaubel.
Clarinets, Claude Glass, Harold Adle.
Cornets, Arthur Elmore, Harold Stafford.
Trombone, Ferd Masters.

The menu for the dinner is announced as follows:

Celery Pickles
Chicken Pie
Mashed Potatoes Baked Beans
Cabbage Salad

ENGLISH WORKERS MEETING

Mine, Railway and Transportation Workers Discuss Wage and Working Conditions.

London, Feb. 13.—1,250,000 mine railway and transport workers are meeting in England today to discuss wage and working conditions. At Southport a wage increase and amelioration of working conditions were promised by the government to miners in a statement read to the miner's federation here this afternoon. The government reply was in response to the most radical of labor demands thus far presented by the miners' federation. The demands included a thirty per cent wage increase, a six hour day and nationalization of the mines.

IS UNDER HANDICAP

DR. DAVIS SAYS OLD CONSTITUTION DETRIMENT TO STATE

NO PROGRESS POSSIBLE

Address of Member of Normal Faculty at St. Joseph on Needs of a New Constitution for Missouri.

"Missouri is choking itself, with its own hands," said Dr. S. E. Davis, of the Maryville Normal School, who spoke at Central Labor Temple, St. Joseph, on the subject of the New Constitution League, and the needs of a new constitution in Missouri Monday night. He claimed that to try to run 1919 Missouri on 1875 Missouri ideas, was putting this state far behind the others.

Missouri has had three constitutions, he said. The first was adopted in 1820; the second constitution was adopted in 1865, in order to deal with the post-war conditions, and the present constitution was drafed in 1875, and contains 30,000 words, or ten times as many as the United States constitution.

The length of the constitution forbids free action by the legislature, because practically every question that comes up is touched in some way by the constitution, and an amendment is necessary, through popular vote, to do what the legislature should do.

"In the time that the constitution was made," Doctor Davis said, "most of the people lived in the country and we had no city problems of note to deal with. The constitution was built around local conditions, and hit all of the small points, instead of allowing the legislature to change these points as conditions changed. For instance, the constitution forbids dueling, and requires cities the size of Kansas City and St. Joseph to publish any change in the city government in a newspaper printed in the German language.

"Our legislative members are paid only $5 a day, which is absurd at this time, and the constitution also allows aliens to vote after a one year's residence in the state, whether the man is a citizen or not. The constitution cripples local initiative and requires the smaller towns to break the law in order to build better school buildings than are permitted by the constitution. Libraries may be voted for, but not kept up by taxes in towns under a certain size.

"Because the state has been unable to change the tax levy system, it has been unable to acquire the money the government is willing to give to the state for vocational training. It is noted also that Missouri has more illiteracy than any other state, except in the South. This condition is due almost entirely to the binding terms of the constitution, which does not allow conditions to get better, through legislation."

Doctor Davis said the bill calling for a constitutional convention, now before the legislature, looks as if it might go through. However, such a bill was beaten by one vote two years ago, and the speaker said the fight would be kept up until a convention is provided for. The New Constitution League, he said, is an organization which for five years has been trying to get a new constitution for the state.

Advocates of a new Constitution for Missouri will be in Jefferson City in force Thursday, Feb. 20, at which time all of the measures now before the General Assembly on that subject will be considered.

The hearing will be before a joint session of the Senate and House committees on elections.

TO HEAR DEFENSE

PROSECUTION WILL REST THIS AFTERNOON IN ADKINS CASE

STATE SHOWS A MOTIVE

Witnesses Testify Defendant Declared Several Occasions He "Would Make It Cost Hornbuckle Dearly."

With some ten or fifteen witnesses having been introduced the prosecution in the case of Mark M. Adkins, of Elmo, charged with third degree arson, indicated they would rest the state's case this afternoon when the witnesses for the defense will be called. It is expected that at least two more days will be taken up with hearing testimony, as with some seventy-five or eighty witnesses summoned, only a few have as yet been used. Witnesses for the defense number over fifty.

The prosecution has succeeded in establishing the fact that Adkins held a decidedly resentful feeling against James Hornbuckle, the prosecuting witness, because of having a car in possession replevined by him, it having been shown on several occasions that Adkins had declared he would make it cost Hornbuckle dearly.

Other than showing a possible motive for the crime charged, the balance of the testimony has served to establish a chain of circumstantial evidence only. Just what line the defense will follow has not been clearly indicated, although from cross examination of state's witnesses, it is believed Adkins will attempt to prove an alibi, accounting for the time from the night of the fire until the following morning.

Orville Halasey, proprietor of a picture theatre at Elmo, told of seeing Adkins and his wife at a school entertainment held at the theatre on the night of the fire.

The prosecution this afternoon introduced several Skidmore witnesses who testified that Adkins was in Skidmore about noon the day after the fire and stopped at the Clyde Barrett garage for the purpose of buying chains. According to Clyde Barrett, Adkins inquired where the Howden seed store was located. Another witness, J. O. Miller, testified that another party was with Adkins and got out of the car near the lumber yard. The witnesses did not state who the other party was with Adkins.

Other witnesses from Elmo testified that a school entertainment was held in Elmo the night of the fire, but no picture show was held.

The prosecution scored a point this morning when Judge Woods overruled an objection by the defense admitting before the jury a conversation between the defendant and Grant Elrod. Elrod testified that the morning after the fire he came to his place of business in Elmo and informed Elrod that officers had been to his place and he thought they were going to charge him with burning the garage. Elrod said that Adkins declared he would have liked it better if Hornbuckle had been burned up with the garage. In a conversation prior to the fire Elrod said that Adkins came to his place and said that he was tired of walking into town and that the car (referring to the car that had been replevined by Hornbuckle) "would prove a damn costly one to Hornbuckle before he got through with it."

C. C. Hellmers, manager of the Maryville Electric Light Co., and Lineman Padgett testified to examining the electric light wires in Clearmont the morning following the fire and finding the current had been grounded near the garage by a wire that had been thrown over the feed wire. Testimony of numerous witnesses showed that there were no lights in Clearmont at the time the fire occurred, the interruption in the service occurring after twelve o'clock that night.

Important witnesses for the prosecution at the afternoon session yesterday were Deputy Sheriffs Gus Romasser and Albert Dowden, who answered the call to go to Clearmont on the morning of the fire. Romasser told of arriving at the scene in company with Dowden about seven o'clock and picking up a car track some distance west of the burned garage. It was brought out that suspicion had been directed to Adkins because of his feeling towards Hornbuckle who had replevined a car in his (Adkins) possession. The automobile tracks led to the Adkins home, according to Romasser and on going to the house to

LEAGUE PLANS DRAG

ELEVENTH HOUR HOLD UP SEEMS IMMINENT

NEW ARMISTICE TERMS

With Disagreement in Some Quarters the Question Was Again Taken up Today—Time Getting Short.

Paris, Feb. 12.—The supreme interallied war council renewed its consideration of new armistice terms for Germany when they met at the foreign office this morning. Questions which have brought about discord in some quarters were again taken up and it is hoped that a plan satisfactory to all the powers will be worked out today in the session as the time is drawing short before the present armistice expires.

Unless tomorrow's session of the League of Nations committee develops sufficient unanimity to secure complete adoption of a constitution President Wilson must hasten back to France at the earliest possible moment. An eleventh hour League of Nations hold-up is very disappointing to the President and his close advisers. It is expected the President will leave either Sunday or Monday. Presents and souvenirs to the President and Mrs. Wilson fill thirty big packing cases.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young — to do this you must watch your liver and bowels — there's no need of having a sallow complexion — dark rings under your eyes — pimples — a bilious look in your face — dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

You Can't Cure Rheumatism With Liniments and Lotions

Torturing Pains Promptly Return in All Their Intensity

You may as well throw your liniments to the winds, if you expect them to rid you of the pangs of rheumatism. In fact, the sooner you discard forever the use of all forms of local treatment, the sooner you will get on the right track which leads to rational means of relief.

For you can rub and rub from now until doomsday, and you will never make any progress toward ridding yourself of rheumatism, because such treatment does not approach the source of the disease.

Remember from the outset that the pangs of rheumatism come from a deepseated cause, and that simply rubbing the painful parts of the body has no effect on the disease itself. But when you locate the cause of the disease, the real source of all these intense pains, you can then treat the disease intelligently.

And until you do treat your rheumatism intelligently, you will never be free from its disabling pains.

So many people have found real, genuine and lasting relief from rheumatism by purifying the blood with S. S. S. that we are justified in recommending this splendid remedy to all who are afflicted. Perhaps your case is like thousands of others which are caused by millions of tiny disease germs in the blood. S. S. S. so thoroughly cleanses the blood, that it routs out completely and eliminates all disease germs that infest it.

In this way the source of the disease is reached, and its cause removed. Give your system a thorough cleansing with this reliable vegetable blood remedy, and you will be delighted to be free of the pangs of rheumatism. It has been used for more than fifty years and is sold at all drug stores. Begin its use today and you will have the same satisfactory experience as thousands of other sufferers.

Should you wish special advice about your own case, it can be had without cost by writing to Chief Medical Adviser, 101 Swift Laboratory, Atlanta, Ga.

LIVED TWO YEARS ON RAW EGG DIET

John H. Packer Gains 44 Pounds and Now Eats Anything—Suffered 20 Years.

"When a man has had to live for two years on nothing much except raw eggs, on account of stomach trouble and then finds a medicine that fixes him up in less than two months so he can eat sour kraut, meats of all kinds and anything else he wants, I think it is time for him to talk for the benefit of others. Well, Tanlac has done all this for me and more, for I am now forty-four pounds heavier than I was the day I began taking it and am now enjoying better health than I have in at least fifteen years," was the remarkable statement made by John H. Packer, patentee and proprietor of the Packer Oil Filter, who lives at Liberty, Mo., recently.

"For twenty years or more," he continued, "I have suffered with my stomach and although I have spent thousands of dollars nothing ever helped me until I got Tanlac. My appetite left me entirely, and what little I did eat would almost double me up with pain and I would bloat up with gas until I could scarcely breathe. During the past five years, especially, I have suffered a great deal from constipation, felt tired out all the time had no energy, and was so drowsy and listless that if I tried to talk business to a man it was an effort to express what I wanted to say. My health finally got so bad that I was forced to give up a splendid position in Pocatello, Idaho and nobody except those in the same condition can fully understand how I suffered.

"I had almost lost faith in all medicines, as I had tried so many without results, but Tanlac certainly has been a revelation to me. I can now eat just anything I want and never experience a particle of trouble. I have never had a better appetite, and all signs of indigestion, gas and distress after eating are gone. Tanlac has also relieved me of constipation and strengthened and rebuilt me up until I feel as full of energy as when I was a boy. When I first started on Tanlac I weighed one hundred and twenty-four pounds, but I now weigh one hundred and sixty-eight and a half and this shows how well suited to my case Tanlac was."

Tanlac is sold in Maryville by the Koch Pharmacy, in Conception by A. M. Colly and in Pickering by H. M. Lincoln.—Adv.

DEVELOP U. S. LANDS

RECONSTRUCTION POLICY IS THE PLAN IN BILL INTRODUCED

ITS A COMMUNITY IDEA

Will Seek to Divert Millions of City Dwellers to Have Them Cast Their Lot With New Communities.

Washington, Feb. 12.—Intensive development of the United States is proposed as the American policy of reconstruction in identic bills laid before the Senate and House today by Senator Kenyon of Iowa, and Representative Kelly of Pennsylvania.

The authors of the bills would apply the reconstruction policy that followed the Civil War on a different scale to the present period, and would have the Government sponsor and finance a "back to the land" movement unprecedented

The bill was drawn after extended conferences with officials of the Departments of Agriculture, Labor, Interior and the Post Office and War Departments. It attempts to combine all the good features of all the hastily prepared reconstruction and unemployment measures thus far introduced in either house.

The central idea is the community development idea. That is, that there is room for thousands of new communities—agricultural communities, industrial communities, mining communities, timber communities—where people can be well , prosperous and happy all over the nited States It would seek to divert millions of city dwellers and have them cast their lot with the new communities it provides for.

In practical details the bill provides for the appointment of a national construction service under an executive board made up of the Secretaries of Agriculture, Labor, Interior and War, and the Postmaster General. An appropriation of $100,000,000 is carried for initiating the experiment.

Basic measures which would be undertaken immediately after the passage of the bill by Congress would include work on all unimproved highways, to build up rural transportation facilities, establishment on a nation-wide basis of thousands of parcel post motor truck routes and the development of carefully planned community settlements on these routes where natural conditions would give support to such settlements.

Army motor trucks not required by the War Department for the military establishment of peace times would be turned over to the Post Office Department for the establishment of the new postal routes. It is estimated that 25,000 of these trucks would be immediately available.

Under the broad conception of the framers of the legislation the road improvement would begin at once in the various states and the Post Office Department would start the establishment of the parcel post routes it has had so long in contemplation.

At strategic points along the routes the work of establishing new communities and developing old communities would be going forward, these communities being linked to nearby towns and rural centers by the new motor truck routes. The expectation of the supporters of the legislation is that many of the demobilized soldiers, sailors and munition workers will be induced to link their fortunes with the new community centers.

The board in charge of the national construction service would be empowered by the bill to locate the areas to be developed, distributing them as widely as possible among the various states and choosing in all cases "those regions and areas which are, or may be made, best adapted to profitable agriculture, and in which the economic and social advantages of community life can be made available.

In selecting the sites for settlement the bill gives the officials of the national constructive service power to reserve any part of the public domain and to purchase or acquire by Federal condemnation any new areas of unimproved land which may be withheld for speculation or other purposes incompatible with the public interest.

The bill provides that when lands for development have been chosen agents of the national construction service shall aid in organizing them, even to the extent of furnishing ready made farm buildings and supplying stock, machinery and seed to prospective purchasers. In addition, permission to establish co-operativ buying, selling, storage, insurance and credit agencies and other measures for social and economic welfare of the settlers is granted by the bill.

When the various projects were established on a paying basis the settlers would be required to pay a nominal rent to the Government for the use of the land.

question Adkins, he came out protesting that he had been away from home and that the officials were trying to "put something over on him." Romasser said that he went into the garage at the Adkins home following their arrival there between seven and eight o'clock, and after inspecting the car found the engine warm, indicating that the car had been used shortly before.

Romasser said that the engine of the car was warm and when he called Adkins' attention to it, that Adkins said that he did have the car out and had driven to Elmo to attend a picture show. Mr. Romasser stated that there was no picture show in Elmo that night.

The testimony of Deputy Dowden was practically the same as that given by Romasser.

Mrs. Henry Turpin who lives west of Clearmont, told of hearing a car pass their home going west shortly after the fire was seen. Mrs. Turpin said she got up in the night to get the baby a drink and saw the blaze from the burning garage through the window. In a few minutes a car passed over the bridge going west. The Turpins live three miles west of Clearmont.

Carl Burch, a former Clearmont boy, now in service, told of being in the automobile with Deputies Romasser anad Dowden when they tracked a car to the Adkins home.

Forum-ettes

After a man reaches the age of sixty his "devilishness" is mostly in his head. He may think he is impressing others with his talk, but he isn't fooling any one.

There, little brewery, don't you cry, you'll be making sausage by and by.

It must make an undertaker smile to see a sign on a business man's door: "Gone to Lunch, Back in Thirty Minutes." Business men don't take enuf time for their meals.

Think of this some time when you discover a typographical error in your newspaper: A federal prisoner has figured out that in an ordinary newspaper column there are ten thousand pieces of type. There are seven wrong positions that a letter may be in and there are seventy thousand chances to make errors, millions of chances for transpositions. In the one short sentence, "To be or not to be," by transpositions it is possible to make 2,759,022 errors. Many perils beset a printer.

It is when a woman begins to tell her age that her age begins to tell on her.

"Short skirts conserve cloth," says a writer in a woman's magazine. They also furnish material for gossip.

"Farmers don't know what their produce is worth," says a writer in an agricultural paper in an article on "Educating the Farmer." T'll he don't! Well, you go out in the country and try to buy a dozen eggs and a pound of butter from a farmer and you'll change your mind. We tried it the other day, and speak not as the Scribes and Pharisees, but as one having authority.

An Indiana man claims to have perfected an odorless onion. That don't arouse our enthusiasm a bit. We haven't much use for these so-called "less' things. There's a beerless beer and whiskeyless whiskey and gasless gas and eggless eggs and Christlikeless Christians and reformless reformers, ad libitum, ad nauseam. We have no faith in the Indiana man's "odorless onion." Maybe an onion by any other name would smell just the same.

CANDY IN PLACE OF BOOZE

A Sweet Tooth Has Developed at National Capital Since It Has Gone Dry

Washington, Feb. 12.—Washington, already dry by statute, is in training for the days that are to come after the prohibition amendment goes into effect. Even now it is anticipating the days when the "bone dry" law will go into effect upon the signing of the new revenue bill by the President. Since the District was made "dry" by Congress, it has not been against the law for residents of the district to bring liquor into the city, or to have it, but under the bone dry law, as recently interpreted by the Supreme Court in a case from West Virginia this will be forbidden all save members of the diplomatic corps, who may, of course, have liquor on embassy or legation soil; for technically, it is foreign soil

But in the sixteen months the district has been "dry," the residents who do not wish to go to the trouble of shipping in liquid refreshments have been casting about for substitutes, with results that have been startling, although highly satisfactory to the candy merchants. Most of the old barrooms have been turned into candy shops or restaurants, and many of the establishments of a tobacco concern which owns a great string of stores throughout the country have put in soda fountains, and also sell candy. But the regular candy stores have done a tremendously increased business, according to the dealers who have been asked as to the percentage of increase in the men's trade at their stores.

"Some of the old stores have more than doubled their business since the town went "dry," said one candy merchant. "One big store has been compelled to close three hours before its usual time because its stock had been cleaned out. Soldiers are great buyers of candy, and patronize confectionary stores to the exclusion of the few places that went from 'hard' to 'soft' drinks when the liquor was banished. Stores that formerly had but few men customers now are thronged with men who bear no resemblance to 'mollycoddles,' but most of whom, on the other hand, are 'huskies.' I have often heard that candy was the only satisfactory substitute for liquor and that a man's 'sweet tooth' needed only a drouth to bring it to life. From the way my trade has increased I know there must be something to the idea."

URIC ACID IN THE SYSTEM

BY LEE H. SMITH, M. D.

Uric acid is now generally recognized as the cause of more diseases than was heretofore believed. When the kidneys are out of order uric acid accumulates within the body in super abundance. The disordered kidneys do not filter the poisons out of the blood, as they ought to do, and so the poisons remain in the blood and float around until they find a place to lodge, in form of urate salts. The thing to remember is that you may have rheumatism in any part of the body—you may have pains anywhere—your back may ache and your head may be dizzy—but the trouble is not where the pain appears. The trouble is in the kidneys, and what is the first thing to do? You must get that excess uric acid out of your system, which can be done by taking Anuric Tablets, the splendid remedy which Dr. Pierce, of Buffalo, N. Y., has put on sale in the drug stores at a low price. Anuric Tablets (made double strength), when taken into the system as medicine, have the peculiar power of dissolving the uric acid deposited there. Drop a bit of sugar or salt into hot water, and it will disappear. In precisely the same way do these Anuric Tablets dissolve uric acid. Of course, after ridding the system of uric acid, it may return again unless you eat the right foods and live the right kind of life, but Dr. Pierce will advise you fully on proper food and correct living if you write and ask him. He makes no charge for such advice. Take Anuric Tablets to-day, by all means, and get that uric acid out of your system. Don't, don't, don't, put the matter off.

TO DISCUSS PLAN

MAYOR'S WAR MEMORIAL COMMITTEE TO MEET FRIDAY

MORE MEMBERS NAMED

Fourteen Organizations Have Appointed Representatives to Form a Central Committee.

The only organizations who have not yet responded to the Mayor's invitation to be represented on the central committee called to take up the matter of a memorial to our soldiers and sailors are: Liberty Loan Committee, War Saving and Thrift Stamp Committee, United Waar Work committee, Nodaway County Bar Association, the Board of Education and the Knights of Columbus.

In addition to the six organizations already reporting representatives on the committee, the following already have named representatives:

Commercial Club, Nathaniel Sisson.
Sunday schools, C. Edwin Wells.
Red Cross, M. J. Alderman.
Women's Relief Corps, Mrs. M. E. Farrar.
Ministers Alliance, Dr. S. A. Coile.
Spanish American War Veternas, Harry D. Snyder.
Home Guards, Sgt. E. C. Curfman.

Thirteen civic, religious, educational and war organizations have now named representatives to the committee called by Mayor W. O Garrett to meet Friday night at the Commercial Club rooms to discuss and formulate plans that are expected to result in the erectiono of a war memorial. The meeting will be held at eight o'clock.

It is expected that the organizations not yet reporting will have named representatives in time to have them present and take part in the meeting as it is desired that every society named by the mayor be represented on the central committee.

Just what action the committee will be taken is a matter for speculation, but it is believed that steps will be taken looking toward the erection of a community building, hundreds of citizens having expressed a desire to see such a building erected with many having pledged to actively support such a project.

A BRAND NEW PROFESSION

Farm Mechanics a Profitable and Attractive Vocation for War Disabled Men—Uncle Sam Pays.

Washington, Feb. 12.—In other days a "farm mechanic" was usually a chap who could solder up the hole in a milk bucket, repair the pump or paint the wagon or tinker with the clock. Today the term means that he is a highly skilled artisan, employed as such by larger farms. In the plowing season he is tractor operator, engineer of the motive machinery which pulls the gang plows, harrows and seeders, doing the work at one cut of half a dozen plow teams and men

He is engineer and superintendent of the reaping and threshing in their season. He supervises and operates the cutting of silage and filling of silos. He takes care of the dairy machinery or the electric light plant of the farm. He looks after the upkeep of the automobiles and trucks of the establishment. Such are in general the duties of the "farm mechanic" for which disabled soldiers are being reeducated by the United States government through the federal board for vocational education. Disabled men are given support for dependents. All expenses of the course are paid by the government.

War disabled farm boys are preferred for education along these lines. Their practical knowledge of agriculture being a valuable and almost essential basis upon which to build. Large farm and plantation owners forced by labor conditions to turn more to mechanical labor saving devices are eager bidders for competent men and offer attractive salaries

The federal board for vocational education at Washington is desirous of getting in communication with war disabled farm young men who would be interested in taking training for the farm mechanics and similar courses.

Corp. Roscoe Burris Released.

Corporal Roscoe E. Burris, a son of Dr. and Mrs. W. F. Burris, arrived home last night to visit his parents. He was discharged from military service last Friday. Corp. Song by guests accompanied by orchestra.
"Maryville and Her Boys," Judge John M. Dawson.

The Father and Son banquet—chicken pie dinner—at the Christian church tomorrow night is going to be something of an innovation. The program calls for some interesting talks by both fathers and sons and a program that calls for discussion of the relation of father and son from all angles has been prepared. The program promises something out of the ordinary and together with the musical numbers and other things, the "other things" being the chicken pie those who attend will be well repaid. Dr. S. A. Coile of the Presbyterian church will act as toastmaster.

Music will be furnished for the occasion by the Christian Bible school orchestra under the direction of Mrs. Loren J. Schnaubel and composed of the following members:

Violins, Margaret Louise Hosmer, Chas. Elmore, Hazel Schnaubel.
Clarinets, Claude Glass, Harold Adle.
Cornets, Arthur Elmore, Harold Stafford.
Trombone, Ferd Masters.

The menu for the dinner is announced as follows:

Celery Pickles
Chicken Pie
Mashed Potatoes Baked Beans
Cabbage Salad
Hot Biscuit Jelly
Ice Cream Home-made Cake
Coffee

The dinner hour has been set at 6:30 o'clock and the men are expected to bring a boy—a son if they have one, if not some one else's son

ENGLISH WORKERS MEETING

Mine, Railway and Transportation Workers Discuss Wage and Working Conditions.

London, Feb. 12—1,250,000 mine, railway and transport workers are meeting in England today to discuss wage and working conditions. At Southport a wage increase and amelioration of working conditions were promised by the government to miners in a statement read to the miner's federation here this afternoon. The government reply was in response to the most radical of labor demands thus far presented by the miners' federation. The demands included a thirty per cent wage increase, a six hour day and nationalization of the mines.

IS UNDER HANDICAP

DR. DAVIS SAYS OLD CONSTITUTION DETRIMENT TO STATE

NO PROGRESS POSSIBLE

Address of Member of Normal Faculty at St. Joseph on Needs of a New Constitution for Missouri.

"Missouri is choking itself, with its own hands," said Dr. S. E. Davis, of the Maryville Normal School, who spoke at Central Labor Temple, St. Joseph, on the subject of the New Constitution League, and the needs of a new constitution in Missouri Monday night. He claimed that to try to run 1919 Missouri on 1875 Missouri ideas, was putting this state far behind the others.

Missouri has had three constitutions, he said. The first was adopted in 1820; the second constitution was adopted in 1865, in order to deal with the post-war conditions, and the present constitution was drafed in 1875, and contains 30,000 words, or ten times as many as the United States constitution.

The length of the constitution forbids free action by the legislature, because practically every question that comes up is touched in some way by the constitution, and an amendment is necessary, through popular vote, to do what the legislature should do.

"In the time that the constitution was made," Doctor Davis said, "most of the people lived in the country and we had no city problems of note to deal with. The constitution was built around local conditions, and hit all of the small points, instead of allowing the legislature to change these points as conditions changed. For instance, the constitution forbids dueling, and requires cities the size of Kansas City and St. Joseph to publish any change in the city government in a newspaper printed in the German language.

"Our legislative members are paid only $5 a day, which is absurd at this time, and the constitution also allows aliens to vote after a one year's residence in the state, whether the man is a citizen or not. The constitution cripples local initiative and requires the smaller towns to break the law in order to build better school buildings than are permitted by the constitution. Libraries may be voted for, but not kept up by taxes in towns under a certain size.

"Because the state has been unable to change the tax levy system, it has been unable to acquire the money the government is willing to give to the state for vocational training. It is noted also that Missouri has more illiteracy than any other state, except in the South. This condition is due almost entirely to the binding terms of the constitution, which does not allow conditions to get better, through legislation."

Doctor Davis said the bill calling for a constitutional convention, now before the legislature, looks as if it might go through. However, such a bill was beaten by one vote two years ago, and the speaker said the fight would be kept up until a convention is provided for. The New Constitution League, he said, is an organization which for five years has been trying to get a new constitution for the state.

Advocates of a new Constitution for Missouri will be in Jefferson City in force Thursday, Feb. 20, at which time all of the measures now before the General Assembly on that subject will be considered.

The hearing will be before a joint session of the Senate and House committees on elections.

TO HEAR DEFENSE

PROSECUTION WILL REST THIS AFTERNOON IN ADKINS CASE

STATE SHOWS A MOTIVE

Witnesses Testify Defendant Declared Several Occasions He "Would Make It Cost Hornbuckle Dearly."

With some ten or fifteen witnesses having been introduced the prosecution in the case of Mark M. Adkins, of Elmo, charged with third degree arson, indicated they would rest the state's case this afternoon when the witnesses for the defense will be called. It is expected that at least two more days will be taken up with hearing testimony, as with some seventy-five or eighty witnesses summoned, only a few have as yet been used. Witnesses for the defense number over fifty.

The prosecution has succeeded in establishing the fact that Adkins held a decidedly resentful feeling against James Hornbuckle, the prosecuting witness, because of having a car in possession replevined by him, it having been shown on several occasions that Adkins had declared he would make it cost Hornbuckle dearly.

Other than showing a possible motive for the crime charged, the balance of the testimony has served to establish a chain of circumstantial evidence only. Just what line the defense will follow has not been clearly indicated, although from cross examination of state's witnesses, it is believed Adkins will attempt to prove an alibi, accounting for the time from the night of the fire until the following morning.

Orville Halasey, proprietor of a picture theatre at Elmo, told of seeing Adkins and his wife at a school entertainment held at the theatre on the night of the fire.

The prosecution this afternoon introduced several Skidmore witnesses who testified that Adkins was in Skidmore about noon the day after the fire and stopped at the Clyde Barrett garage for the purpose of buying chains. According to Clyde Barrett, Adkins inquired where the Howden seed store was located. Another witness, J. O. Miller, testified that another party was with Adkins and got out of the car near the lumber yard. The witnesses did not state who the other party was with Adkins.

Other witnesses from Elmo testified that a school entertainment was held in Elmo the night of the fire, but no picture show was held.

The prosecution scored a point this morning when Judge Woods overruled an objection by the defense admitting before the jury a conversation between the defendant and Grant Elrod. Elrod testified that the morning after the fire he came to his place of business in Elmo and informed Elrod that officers had been to his place and he thought they were going to charge him with burning the garage. Elrod said that Adkins declared he would have liked it better if Hornbuckle had been burned up with the garage. In a conversation prior to the fire Elrod said that Adkins came to his place and said that he was tired of walking into town and that the car (referring to the car that had been replevined by Hornbuckle) "would prove a damn costly one to Hornbuckle before he got through with it."

C. C. Hellmers, manager of the Maryville Electric Light Co., and Lineman Padgett testified to examining the electric light wires in Clearmont the morning following the fire and finding the current had been grounded near the garage by a wire that had been thrown over the feed wire. Testimony of numerous witnesses showed that there were no lights in Clearmont at the time the fire occurred, the interruption in the service occurring after twelve o'clock that night.

Important witnesses for the prosecution at the afternoon session yesterday were Deputy Sheriffs Gus Romasser and Albert Dowden, who answered the call to go to Clearmont on the morning of the fire. Romasser told of arriving at the scene in company with Dowden about seven o'clock and picking up a car track some distance west of the burned garage. It was brought out that suspicion had been directed to Adkins because of his feeling towards Hornbuckle who had replevined a car in his (Adkins) possession. The automobile tracks led to the Adkins home, according to Romasser and on going to the house to

LEAGUE PLANS DRAG

ELEVENTH HOUR HOLD UP SEEMS IMMINENT

NEW ARMISTICE TERMS

With Disagreement in Some Quarters the Question Was Again Taken up Today—Time Getting Short.

Paris, Feb. 12.—The supreme interallied war council renewed its consideration of new armistice terms for Germany when they met at the foreign office this morning. Questions which have brought about discord in some quarters were again taken up and it is hoped that a plan satisfactory to all the powers will be worked out today in the session as the time is drawing short before the present armistice expires.

Unless tomorrow's session of the League of Nations committee develops sufficient unanimity to secure complete adoption of a constitution President Wilson must hasten back to France at the earliest possible moment. An eleventh hour League of Nations hold-up is very disappointing to the President and his close advisers. It is expected the President will leave either Sunday or Monday. Presents and souvenirs to the President and Mrs. Wilson fill thirty big packing cases.

POLES ADVANCING AGAIN.

Berlin, Feb. 12.—Poles in Eastern Germany are again advancing and are reported today to be menacing Bromberg in the province of Posan. Polish troops fired on a train enroute for Lissa.

FEDERAL JUDGE ROBBED.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young — to do this you must watch your liver and bowels — there's no need of having a sallow complexion — dark rings under your eyes — pimples — a bilious look in your face — dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

You Can't Cure Rheumatism With Liniments and Lotions

Torturing Pains Promptly Return in All Their Intensity

You may as well throw your liniments to the winds, if you expect them to rid you of the pangs of rheumatism. In fact, the sooner you discard forever the use of all forms of local treatment, the sooner you will get on the right track which leads to rational means of relief.

For you can rub and rub from now until doomsday, and you will never make any progress toward ridding yourself of rheumatism, because such treatment does not approach the source of the disease.

Remember from the outset that the pangs of rheumatism come from a deepseated cause, and that simply rubbing the painful parts of the body has no effect on the disease itself. But when you locate the cause of the disease, the real source of all these intense pains, you can then treat the disease intelligently.

And until you do treat your rheumatism intelligently, you will never be free from its disabling pains.

So many people have found real, genuine and lasting relief from rheumatism by purifying the blood with S. S. S. that we are justified in recommending this splendid remedy to all who are afflicted. Perhaps your case is like thousands of others which are caused by millions of tiny disease germs in the blood. S. S. S. so thoroughly cleanses the blood, that it routs out completely and eliminates all disease germs that infest it.

In this way the source of the disease is reached, and its cause removed. Give your system a thorough cleansing with this reliable vegetable blood remedy, and you will be delighted to be free of the pangs of rheumatism. It has been used for more than fifty years and is sold at all drug stores. Begin its use today and you will have the same satisfactory experience as thousands of other sufferers.

Should you wish special advice about your own case, it can be had without cost by writing to Chief Medical Adviser, 101 Swift Laboratory, Atlanta, Ga.

LIVED TWO YEARS ON RAW EGG DIET

John H. Packer Gains 44 Pounds and Now Eats Anything—Suffered 20 Years.

"When a man has had to live for two years on nothing much except raw eggs, on account of stomach trouble and then finds a medicine that fixes him up in less than two months so he can eat sour kraut, meats of all kinds and anything else he wants, I think it is time for him to talk for the benefit of others. Well, Tanlac has done all this for me and more, for I am now forty-four pounds heavier than I was the day I began taking it and am now enjoying better health than I have in at least fifteen years," was the remarkable statement made by John H. Packer, patentee and proprietor of the Packer Oil Filter, who lives at Liberty, Mo., recently.

"For twenty years or more," he continued, "I have suffered with my stomach and although I have spent thousands of dollars nothing ever helped me until I got Tanlac. My appetite left me entirely, and what little I did eat would almost double me up with pain and I would bloat up with gas until I could scarcely breathe. During the past five years, especially, I have suffered a great deal from constipation, felt tired out all the time had no energy, and was so drowsy and listless that if I tried to talk business to a man it was an effort to express what I wanted to say. My health finally got so bad that I was forced to give up a splendid position in Pocatello, Idaho and nobody except those in the same condition can fully understand how I suffered.

"I had almost lost faith in all medicines, as I had tried so many without results, but Tanlac certainly has been a revelation to me. I can now eat just anything I want and never experience a particle of trouble. I have never had a better appetite, and all signs of indigestion, gas and distress after eating are gone. Tanlac has also relieved me of constipation and strengthened and rebuilt me up until I feel as full of energy as when I was a boy. When I first started on Tanlac I weighed one hundred and twenty-four pounds, but I now weigh one hundred and sixty-eight and a half and this shows how well suited to my case Tanlac was."

Tanlac is sold in Maryville by the Koch Pharmacy, in Conception by A. M. Colly and in Pickering by H. M. Lincoln.—Adv.

DEVELOP U. S. LANDS

RECONSTRUCTION POLICY IS THE PLAN IN BILL INTRODUCED

ITS A COMMUNITY IDEA

Will Seek to Divert Millions of City Dwellers to Have Them Cast Their Lot With New Communities.

Washington, Feb. 12.—Intensive development of the United States is proposed as the American policy of reconstruction in identic bills laid before the Senate and House today by Senator Kenyon of Iowa, and Representative Kelly of Pennsylvania.

The authors of the bills would apply the reconstruction policy that followed the Civil War on a different scale to the present period, and would have the Government sponsor and finance a "back to the land" movement unprecedented

The bill was drawn after extended conferences with officials of the Departments of Agriculture, Labor, Interior and the Post Office and War Departments. It attempts to combine all the good features of all the hastily prepared reconstruction and unemployment measures thus far introduced in either house.

The central idea is the community development idea. That is, that there is room for thousands of new communities — agricultural communities, industrial communities, mining communities, timber communities—where people can be well , prosperous and happy all over the nited States It would seek to divert millions of city dwellers and have them cast their lot with the new communities it provides for.

In practical details the bill provides for the appointment of a national construction service under an executive board made up of the Secretaries of Agriculture, Labor, Interior and War, and the Postmaster General. An appropriation of $100,000,000 is carried for initiating the experiment.

Basic measures which would be undertaken immediately after the passage of the bill by Congress would include work on all unimproved highways, to build up rural transportation facilities, establishment on a nation-wide basis of thousands of parcel post motor truck routes and the development of carefully planned community settlements on these routes where natural conditions would give support to such settlements.

Army motor trucks not required by the War Department for the military establishment of peace times would be turned over to the Post Office Department for the establishment of the new postal routes. It is estimated that 25,000 of these trucks would be immediately available.

Under the broad conception of the framers of the legislation the road improvement would begin at once in the various states and the Post Office Department would start the establishment of the parcel post routes it has had so long in contemplation.

At strategic points along the routes the work of establishing new communities and developing old communities would be going forward, these communities being linked to nearby towns and rural centers by the new motor truck routes. The expectation of the supporters of the legislation is that many of the demobilized soldiers, sailors and munition workers will be induced to link their fortunes with the new community centers.

The board in charge of the national construction service would be empowered by the bill to locate the areas to be developed, distributing them as widely as possible among the various states and choosing in all cases "those regions and areas which are, or may be made, best adapted to profitable agriculture, and in which the economic and social advantages of community life can be made available.

In selecting the sites for settlement the bill gives the officials of the national constructive service power to reserve any part of the public domain and to purchase or acquire by Federal condemnation any new areas of unimproved land which may be withheld for speculation or other purposes incompatible with the public interest.

The bill provides that when lands for development have been chosen agents of the national construction service shall aid in organizing them, even to the extent of furnishing ready made farm buildings and supplying stock, machinery and seed to prospective purchasers. In addition, permission to establish co-operative buying, selling, storage, insurance and credit agencies and other measures for social and economic welfare of the settlers is granted by the bill.

When the various projects were established on a paying basis the settlers would be required to pay a nominal rent to the Government for the use of the land.

TO HEAR DEFENSE

question Adkins, he came out protesting that he had been away from home and that the officials were trying to "put something over on him." Romasser said that he went into the garage at the Adkins home following their arrival there between seven and eight o'clock, and after inspecting the car found the engine warm, indicating that the car had been used shortly before.

Romasser said that the engine of the car was warm and when he called Adkins' attention to it, that Adkins said that he did have the car out and had driven to Elmo to attend a picture show. Mr. Romasser stated that there was no picture show in Elmo that night.

The testimony of Deputy Dowden was practically the same as that given by Romasser.

Mrs. Henry Turpin who lives west of Clearmont, told of hearing a car pass their home going west shortly after the fire was seen. Mrs. Turpin said she got up in the night to get the baby a drink and saw the blaze from the burning garage through the window. In a few minutes a car passed over the bridge going west. The Turpins live three miles west of Clearmont.

Carl Burch, a former Clearmont boy, now in service, told of being in the automobile with Deputies Romasser anad Dowden when they tracked a car to the Adkins home.

Forum-ettes

After a man reaches the age of sixty his "devilishness" is mostly in his head. He may think he is impressing others with his talk, but he isn't fooling any one.

There, little brewery, don't you cry, you'll be making sausage by and by.

It must make an undertaker smile to see a sign on a business man's door: "Gone to Lunch, Back in Thirty Minutes." Business men don't take enuf time for their meals.

Think of this some time when you discover a typographical error in your newspaper: A federal prisoner has figured out that in an ordinary newspaper column there are ten thousand pieces of type. There are seven wrong positions that a letter may be in and there are seventy thousand chances to make errors, millions of chances for transpositions. In the one short sentence, "To be or not to be," by transpositions it is possible to make 2,759,022 errors. Many perils beset a printer.

It is when a woman begins to tell her age that her age begins to tell on her.

"Short skirts conserve cloth," says a writer in a woman's magazine. They also furnish material for gossip.

"Farmers don't know what their produce is worth," says a writer in an agricultural paper in an article on "Educating the Farmer." T'll he don't! Well, you go out in the country and try to buy a dozen eggs and a pound of butter from a farmer and you'll change your mind. We tried it the other day, and speak not as the Scribes and Pharisees, but as one having authority.

An Indiana man claims to have perfected an odorless onion. That don't arouse our enthusiasm a bit. We haven't much use for these so-called "less' things. There's a beerless beer and whiskeyless whiskey and gasless gas and eggless eggs and Christlikeless Christians and reformless reformers, ad libitum, ad nauseam. We have no faith in the Indiana man's "odorless onion." Maybe an onion by any other name would smell just the same.

CANDY IN PLACE OF BOOZE

A Sweet Tooth Has Developed at National Capital Since It Has Gone Dry

Washington, Feb. 12.—Washington, already dry by statute, is in training for the days that are to come after the prohibition amendment goes into effect. Even now it is anticipating the days when the "bone dry" law will go into effect upon the signing of the new revenue bill by the President. Since the District was made "dry" by Congress, it has not been against the law for residents of the district to bring liquor into the city, or to have it, but under the bone dry law, as recently interpreted by the Supreme Court in a case from West Virginia this will be forbidden all save members of the diplomatic corps, who may, of course, have liquor on embassy or legation soil; for technically, it is foreign soil

But in the sixteen months the district has been "dry," the residents who do not wish to go to the trouble of shipping in liquid refreshments have been casting about for substitutes, with results that have been startling, although highly satisfactory to the candy merchants. Most of the old barrooms have been turned into candy shops or restaurants, and many of the establishments of a tobacco concern which owns a great string of stores throughout the country have put in soda fountains, and also sell candy. But the regular candy stores have done a tremendously increased business, according to the dealers who have been asked as to the percentage of increase in the men's trade at their stores.

"Some of the old stores have more than doubled their business since the town went "dry," said one candy merchant. "One big store has been compelled to close three hours before its usual time because its stock had been cleaned out. Soldiers are great buyers of candy, and patronize confectionary stores to the exclusion of the few places that went from 'hard' to 'soft' drinks when the liquor was banished. Stores that formerly had but few men customers now are thronged with men who bear no resemblance to 'mollycoddles,' but most of whom, on the other hand, are 'huskies.' I have often heard that candy was the only satisfactory substitute for liquor and that a man's 'sweet tooth' needed only a drouth to bring it to life. From the way my trade has increased I know there must be something to the idea."

URIC ACID IN THE SYSTEM

BY LEE H. SMITH, M. D.

Uric acid is now generally recognized as the cause of more diseases than was heretofore believed. When the kidneys are out of order uric acid accumulates within the body in super abundance. The disordered kidneys do not filter the poisons out of the blood, as they ought to do, and so the poisons remain in the blood and float around until they find a place to lodge, in form of urate salts. The thing to remember is that you may have rheumatism in any part of the body—you may have pains anywhere—your back may ache and your head may be dizzy—but the trouble is not where the pain appears. The trouble is in the kidneys, and what is the first thing to do? You must get that excess uric acid out of your system, which can be done by taking Anuric Tablets, the splendid remedy which Dr. Pierce, of Buffalo, N. Y., has put on sale in the drug stores at a low price. Anuric Tablets (made double strength), when taken into the system as medicine, have the peculiar power of dissolving the uric acid deposited there. Drop a bit of sugar or salt into hot water, and it will disappear. In precisely the same way do these Anuric Tablets dissolve uric acid. Of course, after ridding the system of uric acid, it may return again unless you eat the right foods and live the right kind of life, but Dr. Pierce will advise you fully on proper food and correct living if you write and ask him. He makes no charge for such advice. Take Anuric Tablets to-day, by all means, and get that uric acid out of your system. Don't, don't, don't, put the matter off.

Saturday, Feb. 22

Commencing at 1 p. m.

49 Head of Big Type Poland-China Bred Sows and Gilts Consisting of 8 Tried Sows: 41 Spring Gilts

This offering is strictly Big Type and carry worlds of brood sow character. They have all been double treated and should be immune fro mcholera.

EVERY HOG INSURED AGAINST DEATH.

I have made contract through L. L. Sample, Special Agent for Dr. Gaius W. Hubbard, Underwriting Manager of The Capital Insurance Company, of Topeka, Kansas, to insure each and every hog sold in this sale, insuring them against death from any disease or accident, including fire and lightning, except the disease known as Hog Cholera from which my hogs have received double treatment.

This policy covers each animal for three-fourths the sale purchase price, to take effect at noon sale day and covers for three months. I pay for this policy, which is given free with each hog, the same as the crate in which said hog is shipped.

This should demonstrate to my fellow breeders, that I am looking after their interests, believing this extra inducement will enable you to assist me in making the best bred sow sale I have ever held.

Remember, if the sow dies within the three months you get back three-fourths your purchase price from the insurance company.
